

TRANSITION TO IFRS REPORTING AND UNAUDITED COMPARATIVE IFRS INFORMATION

Vincit Plc's transition to IFRS reporting and unaudited IFRS comparative information

Vincit Plc (together with its subsidiaries "Vincit" or the "Group") will transition from Finnish Accounting Standards (FAS) to International Financial Reporting Standards (IFRS) reporting. The company estimates that the transition to IFRS reporting will increase the comparability of financial figures with other companies in the industry, support the company's growth strategy and increase the interest of international investors in the company.

Vincit publishes its first half-year report prepared in accordance with IFRS standards for the reporting period ending June 30, 2025. Comparative information is presented for the financial years ended December 31, 2024 and December 31, 2023 and for the comparison half-year periods ended June 30, 2024 and June 30,2023. The transition date for IFRS reporting is January 1, 2023. Previously, Vincit has prepared its consolidated financial statements in accordance with Finnish Accounting Standards (FAS).

Vincit has prepared the attached unaudited IFRS financial information to provide investors with comparative information for the consolidated statement of profit or loss, statement of financial position and key figures for the financial years December 31, 2024, December 31, 2023, and for the half-year periods ended June 30, 2024 and June 30, 2023. In addition, the opening statement of financial position for the IFRS transition date January 1, 2023, is presented. The key differences arising from the transition to IFRS reporting compared with FAS reporting are described in the attachment to this release.

The most significant impacts from the transition to IFRS reporting:

- Right of use assets and a lease liability corresponding to the rents to be paid are recognized in the consolidated statement of financial position, which increases long-term assets and lease liabilities. The increase of lease liabilities has an impact on net debt and equity ratio key figures. The presentation of lease expense as instalment of lease liability and interest expense improves cash flow from operating activities and EBITDA ratio.
- Vincit has cancelled the amortisation of goodwill in the IFRS consolidated statement of profit or loss and consolidated statement of financial position for the conversion period. In accordance with IFRS, goodwill is no longer amortised, but it is subject to annual impairment testing based on IAS 36 and whenever there are indications of impairment. In IFRS transition, goodwill has been subject to impairment testing for the dates January 1, 2023, December 31, 2023 and December 31, 2024. The test results did not lead to the recognition of impairment.

The financial information presented in this release is unaudited, with the exception of the consolidated income statements prepared in accordance with the Finnish Accounting Standards (FAS) for the financial years January 1 to December 31, 2024 and January 1 to December 31, 2023 and the consolidated statements of financial position for the financial years ended December 31, 2024 and December 31, 2023.

Notes to the IFRS financial statements

IFRS 1 exemptions have been applied to leases, business combinations and translation differences.

The effects of the transition to IFRS on the Group's reported financial position and financial result are presented below. Below is a summary of the effects of the adoption of the key IFRS accounting principles on the consolidated statements of financial position on January 1, 2023, June 30, 2023, December 31, 2023, June 30, 2024 and December 31, 2024 and on the consolidated statements of profit or loss for January 1 to 31 December, 2023, January 1 to December, 2024, January 1 to June 30, 2023 and January 1 to June 30, 2024. The most significant impacts are related to the reversal of goodwill amortization, the processing of lease agreements, capitalization of intangible assets, as well as deferred taxes and the acquisition of non-controlling interest interests.

1. IFRS 16 - Leases

Vincit's lease agreements are mainly related to business premises, cars and IT-equipment. Prior to the transition to IFRS, Vincit's leases were treated as off-balance sheet items and the related commitments were disclosed as off-balance sheet liabilities in the notes to the financial statements. In FAS, payments related to rent are recognised in the statement of profit or loss under other operating expenses in equal instalments accrued over the duration of the lease period.

In adopting IFRS 16, Vincit has applied the exemption allowed by IFRS 1 to measure lease liabilities and right-of-use assets in IFRS at the transition date. The right-of-use asset and the corresponding lease liability are recognised in the statement of financial position at the discounted value of future lease payments. The lease liabilities have been measured at the present value of the remaining lease payments on January 1, 2023, and a corresponding right-of-use asset has been recognised in the assets of the statement of financial position. With IFRS 16, the lease expenses in the statement of profit or loss in accordance with the FAS have been replaced

by depreciation of right-of-use assets and interest expenses on lease liabilities. In addition, the transition will affect the Group's cash flow between operating cash flow and financing cash flow, as realized rental payments are allocated to financing cash flow. The new standard will not have any practical impact on the Vincit Group's cash flows and the Group's cash flow as a whole will not change, but rather a change in presentation between different parts of the cash flow statement.

Vincit has applied the IFRS 16 exemption, according to which a first-time adopter who is a lessee may not apply IFRS 16 to short-term leases (leases ending within 12 months) and leases where the underlying asset is of low value.

In addition, as a practical expedient, Vincit has not separated in substance fixed non-lease components from lease components and it has applied the portfolio approach to parking spaces, car and equipment lease contracts with similar characteristics.

The effects of leases are presented in column 1 of the statement of profit or loss and statement of financial position adjustment tables.

2. IAS 38 – Capitalisation of Intangible assets

The FAS criteria for the capitalisation of intangible assets differ from those of IAS 38. Vincit has identified costs related to intangible assets that have been capitalized in full in FAS, but for which the conditions for capitalization are not met in IFRS. The adjustments made in the transition to IFRS reduce intangible assets and retained earnings in the statement of financial position and reduce depreciation and amortization recognized in the statement of profit or loss.

The effects of the adjustment are presented in more detail in column 2 of the statement of profit or loss and statement of financial position adjustment tables.

3. IFRS 9 – Credit losses on financial assets (ECL)

The introduction of IFRS has changed the calculation of the impairment loss of the Group's financial assets by replacing the FAS approach based on probable credit losses with the expected future credit loss (ECL) approach in accordance with IFRS 9. As a result, Vincit has applied a simplified approach to trade receivables defined in IFRS 9, according to which a deduction is recognised for all trade receivables based on expected credit losses over the entire life of the company. The change in the credit loss provision has been recognised in profit or loss under other operating expenses. The effects of the adjustment are presented in more detail in column 3 of the statements of profit or loss and statement of financial position adjustment tables.

4. IAS 16 – Classification of Renovation Costs of Business Premises

Expenses incurred from the renovation of rental apartments ("renovation costs") are presented in the FAS as intangible assets in the statement of financial position. In the IFRS financial statements, renovation costs are presented in accordance with IAS 16 in property, plant and equipment. Vincit has reclassified these items in connection with the adoption of IFRS. The effects of the adjustment are presented in more detail in column 4 of the statement of profit or loss and statement of financial position adjustment tables.

5. IFRS 3 – Business Combinations

Vincit complies with the exemption allowed by IFRS 1, according to which goodwill arising from business combinations has been recognised in the IFRS financial statements in accordance with the statement of financial position value shown in the FAS consolidated financial statements on the IFRS transition date of January 1, 2023 for acquisitions that had taken place before the adoption of IFRSs. Vincit has cancelled the amortisation of goodwill in accordance with FAS in the IFRS consolidated statement of profit or loss and statement of financial position for the conversion period.

Notes to the IFRS financial statements

In accordance with IFRS, goodwill is no longer amortised, but it is subject to annual impairment testing based on IAS 36 and whenever there are indications of impairment. In connection with the implementation, goodwill has been subject to impairment testing for the dates January 1, 2023, December 31, 2023 and December 31, 2024. The testing did not result in the recognition of impairment.

The amortization of goodwill recognized in the FAS financial statements has been reversed as an IFRS adjustment in the statement of profit or loss and statement of financial position. The effects of the adjustment are presented in more detail in column 5 of the statement of profit or loss and statement of financial position adjustment tables.

6. IFRS 1 – Translation Differences

In its FAS financial statements, Vincit has recorded the translation differences of foreign operations in a separate equity item. In the transition to IFRS, the cumulative translation differences of all foreign operations have been reset to zero as permitted by IFRS 1 as permitted by the IFRS 1 standard as of January 1, 2023. Gains and losses accrued after the adoption of IFRSs and subsequently arising from the transfer of foreign operations do not include translation differences that arose before the transition date but include translation differences that arose after the transition date. The adjustment has been recognised in retained earnings.

As of the transition date of January 1, 2023, the translation difference will be presented in other comprehensive income (OCI) in accordance with IFRS. The effects of the adjustment are presented in more detail in column 6 of the statement of profit or loss and statement of financial position adjustment tables.

7. Other adjustments

Vincit Plc had a significant influence (28.9% voting rights) on Leadership as a service Oy on 1 January 2023 and it was classified as an associated

company in the FAS financial statements. During the financial year 2023, Leadership as Service Oy organized a directed share issue, as a result of which Vincit's share of the company's voting rights decreased to less than 20 percent and Vincit lost significant influence in the company. In accordance with IFRS standards, the company's shares were classified as financial assets at fair value through profit or loss in accordance with IFRS 9, and the remaining shares was measured at fair value. On December 31, 2023, the IFRS adjustment increased financial assets in the statement of financial position by EUR 199 thousand and financial income of EUR 199 thousand was recorded in the profit and loss for the financial year 2023.

During the financial year 2023 and 2024, Vincit Group companies have acquired their own shares from minority shareholders, as a result of which Vincit's holding in its subsidiaries has increased. In FAS, an acquisition cost calculation is made of shares acquired from a minority, which creates Group active or passive shares. In IFRS, the transaction in question is treated in equity as a transaction with the owners. The adjustment reduced Vincit's goodwill and equity by EUR 119 thousand on December 31, 2023. The adjustment reduced Vincit's goodwill and equity by EUR 588 thousand on December 31, 2024...

Vincit Plc had share-based arrangements with its employees during the financial years 2023 and 2024. The arrangements were tied to a non-market-based EPS condition describing performance, which was not achieved in the financial years in question and therefore no right to shares was created. In FAS, share-based plans are not recorded until the right arises. In IFRS, non-achievement of non-market-based performance conditions is treated so that no net expense is recognised for the vesting period. Therefore, no IFRS adjustment will be recognised for the financial years 2023 and 2024.

The effects of other adjustments are presented in more detail in column 7 of the statement of profit or loss and statement of financial position adjustment tables.

8. IAS 12 - Deferred Taxes

Vincit has recognised deferred taxes in the FAS consolidated financial statements on January 1, 2023 related to tax losses. At the end of the financial year on December 31, 2023 or December 31, 2024, the Group had no deferred tax assets or liabilities in the FAS statement of financial position. In the consolidated financial statements prepared in accordance with IFRS, deferred tax assets and tax liabilities have been recognised for all IFRS adjustments that cause temporary differences as a result of changes in accounting practices.

During the transition period, the most significant deferred tax assets and -liabilities have arisen from the application of IFRS 16 to leases and the cancellation of tax-deductible goodwill amortization. The effects of deferred tax liabilities and receivables are presented separately in the above statement of profit or loss and statement of financial position adjustment tables in connection with each IFRS adjustment.

Alternative Performance Measures (APM)

Vincit complies with the guidelines issued by the European Securities and Markets Authority (ESMA) on the presentation of alternative performance measures, which have been in force since 2016.

Vincit uses and presents the following alternative performance measures that better illustrate the development of operations and statement of financial position: adjusted EBITDA, adjusted EBITA, ROI, ROE, equity ratio and net gearing.

Adjusted EBITA and EBITDA include the following items:

| Adjusted EBITA and EBITDA | 1-6/2024 | 1-6/2023 | 1-12/2024 | 1-12/2023 |
|---------------------------------------------|----------|----------|-----------|-----------|
| Operating Profit (EBIT) | -399 | 2,277 | -288 | 2,177 |
| Depreciations, amortisations and impairment | 1,991 | 1,880 | 4,126 | 3,948 |
| EBITDA | 1,592 | 4,157 | 3,837 | 6,126 |
| Items affecting comparability | | | | |
| Restructuring expenses | 498 | 0 | 520 | 0 |
| Other items affecting comparability | 0 | 92 | 0 | 1,993 |
| Total items affecting comparability | 498 | 92 | 520 | 1,993 |
| Adjusted EBITDA | 2,090 | 4,249 | 4,358 | 8,119 |
| Depreciation and impairment | -1,862 | -1,807 | -3,850 | -3,776 |
| Adjusted EBITA | 228 | 2,442 | 508 | 4,343 |

Summary of the impacts of IFRS adoption to the consolidated equity and result for the period

The following tables present the impact of the adoption of IFRS standards to the equity and result of Vincit Group for the periods presented below

EQUITY RECONCILIATION

| EUR Thousand | Note | 31.12.2024 | 30.6.2024 | 31.12.2023 | 30.6.2023 | 1.1.2023 |
